

HEALTH TECHNOLOGY INNOVATION PROGRAM

INFO SESSION #1 | NOVEMBER 26, 2024 | 11:00 AM-12:00 PM

About ST Innovations

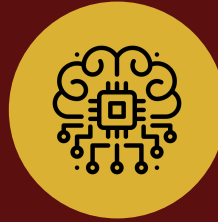

- We are the business arm of iSMART at the University of Alberta
- A health technology service provider with access to the state-of-the-art facilities, equipment and expertise.
- Bringing ideas towards commercialization
- Advancing early health technologies from discovery to validation
- We are your health technology development partner and assist our clients with prototype design and development, and validation services

Our Areas of Expertise

**Sensors & Motor
Integration**

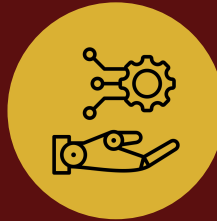

**Analytics & Machine
Learning**

**Rehabilitation &
Injury Prevention**

**Device
Development**

**Robotics and Extended
Reality**

**Clinical & End-User
Validations**

About the Health Technology Innovation Program

ST Innovations, with the support of Alberta Innovates, is pleased to announce an exciting opportunity for Alberta innovators to collaborate with ST Innovations to utilize our services at a subsidized rate to **accelerate their health innovation product**.

Are you an innovator who has an innovative health product or idea that requires prototyping, engineering, clinical expertise or validation?

Apply Now!

If successful and your project is accepted into the program, you will receive up to \$75,000 worth of services and expertise in health technology market fit product development and/or validation.

How We Can Help

Full Health Technology Development Services

Under this option, all the prototypes will be produced and tested by the ST Innovations' team. **The client will be able to access up to \$75,000 worth of full services offered by ST Innovations.**

Assistance in Health Technology Development Services

The client is provided access to ST Innovations facilities at UAlberta with both **technical support and equipment resources to develop their own prototypes and/or further validate and test their prototypes.**

Applying for the Health Technology Innovation Program: **Eligibility**

1

Must be an Alberta-based innovator

2

Must have held an Alberta Innovates' AICE grant or Entrepreneurial Investment grant (excluding micro vouchers) or an IRAP grant for a project related to the technology they wish to seek services for from ST Innovations within the last 2 years

3

Technology has been evaluated as per number 2

Apply via website at stinnovations.ca | Deadline: January 13, 2025

Applying for the Health Technology Innovation Program: **Evaluation Criteria**

1

Project aligns with the expertise and/or equipment provided by ST Innovations

2

Significant potential economic and societal impacts to Alberta from commercialization of the technology

3

TRL level can be reasonably expected to move 1-2 levels by the end of the project

4

Outcome can be reached in a maximum of 12 months

Apply via website at stinnovations.ca | Deadline: January 13, 2025
